Professional Summary

Full-stack software developer with 4+ years of experience designing, building, and deploying web and mobile applications. Skilled in C#/ASP.NET, SQL, REST APIs, and modern JavaScript frameworks. Proven track record in transforming legacy systems, implementing Agile/DevOps practices, and delivering scalable, secure solutions for healthcare and enterprise clients. Experienced in mentoring teams and streamlining development workflows.

Core Skills & Tech Stack

Languages & Frameworks: C#, ASP.NET MVC, Java, PHP (Laravel), ReactJS, NextJS, TailwindCSS, JavaScript, HTML, CSS
Databases: Microsoft SQL Server (MSSQL), MySQL, SQLite, Firebase
Tools & Platforms: Azure DevOps, Git, GitHub, Visual Studio, VS Code, DevExpress, Postman
Methodologies: Agile (Scrum), Test-Driven Development (TDD), REST API integration, CI/CD pipelines
Other Competencies: Debugging, troubleshooting, GUI design, responsive web design, user training

Professional Experience

P&A Grant Thornton — Semi Senior Developer (PCG Department)

Philippines | Oct 2025 – Present

Design, develop, and deploy HRMS and internal web applications using ASP.NET, SQL Server, Angular, and Azure DevOps while collaborating with HR stakeholders to enhance recruitment and operations systems with a focus on security and scalability. Conduct code reviews, mentor developers, optimize performance, and maintain technical documentation, process flows, and test plans to support continuous improvement.

Eurolink International Network Corporation – Software Developer

Philippines | Sept 2024 – October 2025

Maintained and enhanced the eClaims PhilHealth Integration System to streamline and accelerate claim processing for health facilities. Implemented Azure DevOps for automated SDLC workflows, developed REST API integrations for seamless frontend–backend communication, and managed end-to-end deployments to ensure system stability in production.

Intership Navigation Center – Full-Stack Developer

Philippines/Limassol | Mar 2020 – Aug 2024

Migrated the legacy Crew Management System into a cloud-based platform using Thinkwise low-code software, modernizing user workflows and improving data accessibility through a Master Database system built with ASP.NET MVC. Additionally, developed and maintained the Hartmann Information System (HIS) mobile app while providing SQL/T-SQL and low-code training to junior developers.

Education

Bachelor of Science in Information Technology

Polytechnic University of the Philippines | 2015 – 2020
